 - **Water**

NEW PARADIGM

GLOBAL ENVIRONMENT FACILITY
INVESTING IN OUR PLANET

Planetary Boundaries

A dandelion seed head is shown in silhouette against a bright, clear blue sky. The seed head is the central focus, with its numerous seeds radiating outwards. The stem of the dandelion is visible on the left side, extending from the bottom left towards the center. The overall image has a soft, ethereal quality due to the high contrast between the dark silhouette and the bright sky.

A world transition to a resilient and sustainable future:
